Paper Loading

Rear Push

Front Push (702 model only)

5

Review the configuration settings described on the next page. When complete, press the "Online" button to allow the printer to receive data and begin printing.

PrintMaster 700 Series Setup Menu Reference

LCD Control Panel Display Function View

The LC Display details all the important printer settings and which functions are currently assigned to which keys. Example below:

The upper line indicates that the printer is either in **Online** or **Offline** mode.

- The example below displays the printer's status as in the **Online** mode.
- The selected paper path is **Trac 1**
- The function is **Tear** indicating that key function is currently active in manual mode.
- Once changes have been made and saved, press **Online** to return to the main menu.

Select **Setup** to access Online MENU (Primary) and to change printer configurations.

Control Panel

There are three levels to make Configuration changes through the PM700 control panel:

Setup
Primary Menu
Sub-Menu

1. Press **Setup** to access any of the Primary Menus:

- a) Form
- b) Adjust
- c) Char

2. Example: Select **Form** to access **Sub-Menus**
3. Select **Next** until you see the **Sub-Menu** where you will make change settings.
4. Make your changes in the **Sub-Menu**. Then save the changes by pressing **Set**. When you have made your changes, press **Setup**.
